PROFESSIONAL SUMMARY

Python Odoo Developer with 2 years of experience in developing, customizing, and maintaining Odoo modules across multiple versions. Skilled in Python programming, ERP workflows, and third-party API integrations. Proven ability to deliver scalable, maintainable, and efficient solutions aligned with client needs. Passionate about ERP systems and continuous learning in the Odoo ecosystem.

PROFESSIONAL EXPERIENCE

Junior Odoo Developer May 2023 - June 2025

Pragmatic Tech Soft(Pune, India)

- Developed and customized Odoo modules such as Sales, Inventory, Accounting and CRM.
- Created dynamic dashboards, workflows, and custom fields using Python, JavaScript, and XML.
- Integrated third-party platforms including Shopify and WooCommerce into Odoo ERP.
- Provided technical support, resolved bugs, and enhanced existing modules based on client needs.
- Participated in Odoo version upgrades ensuring data migration and feature compatibility.

Python-Django internship July 2022 - Dec 2022

One Team Solutions Edtech Pvt Ltd(Kochi, Kerala)

- Gained foundational knowledge in Python backend development and front-end integration.
- Assisted in small-scale web development projects and gained exposure to database handling and API calls.

EDUCATION

Bachelor of Computer Application Aug 2019 - Aug 2022

Calicut University, Kerala

PROJECTS

- **Tour and Travel Management System** – Developed a module to manage tour packages, customer bookings, itineraries, and payment schedules.
- **Tailoring Management System** – Created a custom module for handling tailoring orders, customer measurements, fabric tracking, and delivery timelines.
- **Salesperson Performance Tracker**–A custom Salesperson module was developed to enforce customer data access restrictions, ensuring that each salesperson can view and manage only the customers assigned to them.
- **WooCommerce & Shopify Integration** – Integrated WooCommerce and Shopify with Odoo to sync orders, products, customers and inventory in real-time.
